10 Superstorm Sandy struck the City of Bridgeport on October 29, 2012. It was estimated that the city sustained 70 mph gale force winds and storm surge nearly 7 feet above normal high tide. Over 570 single family homes were damaged, 211 buildings in the South End were flooded, and over 250,000 customers experienced power outages. Superstorm Sandy forced the closure or relocation of the remaining businesses in the South End, which has further worsened the economic downturn and devastated the neighborhood's housing vacancies.

Please indicate whether you: _____

- Lived at the current address during Superstorm Sandy and were affected
- Lived at the current address during Superstorm Sandy but were NOT affected
- Did not live at the current address during Superstorm Sandy, but have been affected by flooding during other occasions (here or elsewhere)

29 In 2016, residents in the nine-county San Francisco Bay Area supported a \$12 parcel tax (independent of property value) – to raise \$25 million annually or \$500 million over twenty years – for funding shoreline projects that protect and restore the Bay. The estimated population in 2016 for the region is 7,756,158. Please respond to the following questions about whether a policy like the example given above could help support flood-risk management in your community. If the state proposes that an annual parcel tax (independent of property value) be collected in the coastal communities for the next 20 years to help fund the flood-management plans in your community, would this proposal receive enough support from _____?

	Yes	No	Refuse to answer
your household	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
property owners on your neighborhood	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

a prorated fee based on the income level of the parcel owner	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

31 If this coastal community parcel tax is designated as a flat fee, should this fee be in the amount of _____ per parcel each year for the next 25 years?

	Yes	No	Other	Refuse to answer
\$20 per year or 5.5¢ per day	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
\$30 per year or 8.2¢ per day	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
\$40 per year or 11.0¢ per day	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
\$50 per year or 13.7¢ per day	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
\$75 per year or 20.6¢ per day	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

32 If your municipality independently proposes the same annual parcel tax, would this proposal receive enough support from _____? (Check All That Apply)

	Yes	No	Refuse to answer
your household	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
property owners in your neighborhood	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
property owners in your community (or your municipality)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

33 If an annual parcel tax is to be collected for your municipality, should this parcel tax be designated as _____?

	Yes	No	Other	Refuse to answer

42 What do you think are the barriers for reducing flood risk on residential homes?

	Strongly Disagree	Disagree	Neither Disagree nor Agree	Agree	Strongly Agree	Other	Refuse to answer
The costs for flood management are too high	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Special skills are required to know how to manage flood risk	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Special information is required to know what flood-risk management involves	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Other priorities can outrank the need to manage flood risk	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Don't believe that serious flooding will occur in the foreseeable future	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Floods don't happen often enough to make flood-risk management a high priority	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The information about flood risk is not reliable	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Flood-risk management may not be enough to reduce the risk	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Managing flood risk is too challenging to achieve	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Those who live in the flood plan don't care enough about their flood risk	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Don't want taxes to go up to help pay for flood-risk management	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Don't want any flood management construction to block the view from residential property	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Those who are not exposed to flood risk don't care	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

48 Bridgeport’s resilient project (*Resilient Bridgeport*, <https://resilientbridgeport.com/>) aims to develop flood-management measures that can increase your community’s adaptation and resilience against the environmental damage stemming from sea-level rise, storm surge, flood and erosion. These projects are funded by taxpayers of your municipality, the State of Connecticut and/or the federal government.

Have you heard of *Resilient Bridgeport's* project before?
